WEATHER IN YUGOSLAVIA  
Belgrade, Borba, 23 - 28 Nov 50

23 November

Forecast: Cloudy with rain in western and northwestern sections; especially heavy rains along the coast of the northern Adriatic; brief and light showers expected in the Vojvodina. Moderate to occasionally strong south winds; east winds in the Danube Valley. No change in temperature.

25 November

Forecast: Cloudy with light local rains during the night in northwestern sections; clearing during the early morning hours; slightly cloudy in other sections. Light winds. Temperature falling slightly.

26 November

Report: Mostly cloudy; rain in northern and northwestern sections. Moderate northerly winds in Slovenia, Croatia, and the Vojvodina; southerly winds in other sections. Temperature at 1300 hours, about 3 degrees in Slovenia, 7 degrees in Croatia and the Vojvodina, and about 14 degrees in other sections.

27 November

Forecast: For Slovenia, Croatia, and the Vojvodina -- Moderately cloudy in the morning with occasional local showers and occasional snow. Clearing in northwestern sections during the day. Moderate northerly winds. Temperature falling. For the Primorje -- Moderately cloudy in the morning; increasing cloudiness with local showers in the afternoon in the northern Primorje. For other sections -- Mostly cloudy with light showers; snow in mountainous regions of Bosnia. Less rain during the day in northwestern sections; clearing, except in Serbia and Macedonia, where the rain will last throughout the day. Moderate northwesterly winds. Temperature falling.

28 November

Forecast: Clearing in almost all sections except in the southeast, where it will be moderately cloudy. Heavy morning fogs in valleys, especially in northwestern sections. Morning temperatures in central sections between 0 and -5 degrees. Light to moderate northerly winds. Stormy in the northern Primorje and in Montenegro.
